

Q 20-010

EC Filler

Characteristics

20-010 is a premium lightweight universal filler based on US technology. Its excellent sanding properties significantly speed up the repair process. The smooth application results in an even and non-porous surface. 20-010 EC Filler can be sanded already with high abrasion after a short drying time. Adhesion to iron, steel, aluminium, galvanised substrates, GRP and wood. No sagging of the filler.
