

DATASHEET

Himmel FP200PA

Application

Suitable for pre-filtration of various ventilation, air-conditioning and dust removal systems

Sizes

Standard dimensions roll 1x20m and 2x20m

- Special width and length on demand
- Possible to order pre-perforated rolls

Technical info	Himmel FP200PA
Classification (EN ISO 16890)	Coarse 75%
Classification (EN 779:23012) *outdated standard*	G4
Fiber composition	100% Polyester
Nominal thickness	15 mm
Basic weight	200 g/m ²
Net effective filtering area	1,1m ²
Air flow rate	900m ³ /h
Initial pressure differential	6 Pa
Test dust capacity	2370 g
Average arrestance	92,80%
Flammability	DIN 53438 F1/F1/K1
